> She sleeps that still and pleasant sleep, For which the weary pant in vain, And, where the dews of evening weep, I may not weep again,—
> O! never more upon her grave
> Shall I behold the wild flowers wave!

They laid her where the sun and moon Looked on her tomb with loving eve; And I have heard the breeze of June Sweep o'er it—like a sigh; And the wild river's wailing song Grew dirge-like as it stole along.

And I have dreampt, in many dreams, And talked of her, by summer streams, In crowds, and on the sea, Till in my soul she was enshrined, A young Egeria of the mind.

'Tis years ago!—and other eyes Have flung their beauty o'er my youth: And I have hung on other sighs,
And sounds that seemed the truth: And loved the music which they gave, Like that which perished in the grave

And I have left the cold and dead, To mingle with the living cold-Teere is a weight around my head, My heart is growing old: O! for a refuge and a home With thee, dead Ellen, in thy tomb.

Age sits upon my breast and brain, But they are all thine own, again, Lost partner of their prime! And thou art dearer in thy shroud Than all the false and selfish crowd!

Rise gentle vision of the hours ch go like birds that come not back! And fling thy pale and foneral flowers On Memory's wasted track! Of for the wings that made thee blest, We flee away and be at rest.

AFFECTING INCIDENT .- An incident of the most affecting and heart-rending character occurred at the inquest of the desolate and illstarred stranger, Mary Cotter, who died of yellow fever, as one of the gentleman of the jury informed us, from sheer and absolute neglect! There was the corpse of the mother pale and attenuated, but still beautiful in death -a child but three months old, was evidently seeking for her "milktess breast;" the poor father lay dying at the foot of the corpse -and yet that smile which is known but to infancy and angels, was beaming on the haby's face! Suddenly it turned, and with all the earnestness of mature years, fixed a long and steady gize on a gentleman mimed Tyrrel. The relative advantages of these two armies to society, present an interesting matter for study, and are graphically sketched by the New York Post. The prospective building of the great Central Railroad of Illinois alone, has added to the wealth of that State, in the appropriation of wild lands, the sum of forty llions within a strip of but twelve miles in width, and the actual construction of the road will bring to a ready market millions of acres of land now owned by the general government, which, were the road not construc ted, would lay waste for years to come. The federal government employes ten thousand men at an expense of eight millions of dollars, to carry muskets. The Central Railroad the trouble of cooking.
